GASTROINTESTINAL & LIVER PATHOLOGY EXPERIENCE

- ♦ The privilege of **working and training** with well-known authorities in the field of GI and Liver Pathology like Professor RNM MacSween and Professor Fred Lee in Glasgow (1995-2000), where I became more interested in these specific and challenging areas of pathology.
- ♦ **Specific training** in GI and Liver pathology (March 2000 and April 2001). Most of this period was spent at the Pathology Department in **Glasgow Royal Infirmary**. This hospital is the specialist hospital for this service in west of Scotland and has five upper GI surgeons: four lower GI surgeons, two pancreatic surgeons, three specialist gastroenterologists and two lead consultant GI Pathologists. This enabled me to have a wide experience in handling and reporting all kind of GI, liver and pancreatic specimens and biopsies. I was also involved in preparation and presentation of several GI clinic-pathological meetings (MDTs) that take place on weekly basis.
- ♦ For this purpose, I have also arranged a **rotation around the leading UK and international experts in GI and Liver Pathology in the United Kingdom** as the following:
 - With Professor David Harrison in Edinburgh discussing Liver Pathology with an emphasis on liver transplantation for 3 weeks.
 - With Professor Alistair Burt, who is an international expert in Liver Pathology, in Newcastle for 3 weeks.
 - With Professor MF Dixon, who is a well-known international GI Pathologist, in Leeds for 3 weeks.
 - With Professor Bryan Warren, who is a leading Pathologist particularly in Upper GI Pathology and Barrett's disease, in Oxford for 1 week.
- ♦ **Lead Consultant** in GI & Liver pathology at Department of Pathology & Laboratory Medicine in **Jordan University of Science & Technology and King Abdullah University Hospital (KAUH)** where I participated and lead all relevant multidisciplinary meetings, research activities, and reported or consulted on the difficult biopsies and specimens from inside and outside the hospital.
- ♦ In 2004 I started with other colleagues the **Gastrointestinal Group (GIG)** through **the Arab Division of the International Academy of Pathology**.

PATHOLOGY PROFESSIONAL POSTS

- ♦ Consultant Histopathologist, **King Abdullah University Hospital**, Jordan University of Science and Technology (Jan 2001 – Present).
- ♦ Locum Consultant Pathologist, **Bedford Hospital, Bedford, London, UK** (July 2019)
- ♦ Locum Consultant Pathologist, **Glasgow Royal Infirmary, Glasgow, Scotland** (July 2006).
- ♦ Locum Consultant Pathologist, **Victoria Hospital, Kirkcaldy, Fife, Scotland** (April 2006).
- ♦ Locum Consultant Pathologist, **Royal Manchester Children's Hospital, Manchester UK** (July 2005 – Sep 2005).
- ♦ Locum Consultant Pathologist, **King Faisal Specialist Hospital, Riyadh** (August 2003).
- ♦ Locum consultant Pathologist, **Trafford General Hospital, Manchester UK** (October 2002).
- ♦ Locum Consultant Pathologist, **Stobhill Hospital** (January 2001).
- ♦ Specialist Registrar, **Glasgow School of Pathology** (Aug 1999 – April 2001).
- ♦ SHO, **Glasgow School of Pathology** (1996 – 1999).
- ♦ Clinical Assistant, **Western Infirmary, Glasgow** (1995-1997).

RESEARCH & SCIENTIFIC EXPERIENCE AND ACTIVITIES:

❖ RESEARCH INTERESTS:

Currently I am involved in different research projects in collaboration with colleagues from my department and in collaboration with others at national, regional, and international levels. My main line in research varies but focus on molecular and genetic basis of cancer. Standardization and Quantification of pathological features and incorporating these in the diagnostic applications, and drug induced pathology and iatrogenic diseases of the Gastrointestinal Tract & Liver are other areas of interest.

	◆ <u>Research Projects:</u>
◆ <u>NATIONAL</u>	1. Investigation of selected immunohistochemical markers on macrophages infiltrating various solid tumors. Collaborative double funded research between Stem Cell Therapy Centre Jordan University and Jordan University of Science and Technology [Funded by 6,850 JD]. 2. Characterization of Novel Molecular Markers of Prostate Cancer in Middle Easter Population . [85,640 JD Grant] by the Scientific Research Support Fund (SRSF) (MPH/2/17/2015). 3. MicroRNA Profiling and MicroRNA-Based Treatment of Breast Cancer . [190,000 JD Grant] by the Scientific Research Support Fund (SRSF). Under Submission. 4. The role of estrogen in the pathogenesis and treatment of chronic obstructive pulmonary disease. (30,160 JD Grant) by the Scientific Research Support Fund (SRSF). 5. Obesity and breast cancer: Descriptive and Mechanistic Analysis. Nehad Ayoub, Rami Yaghan, Alia Al-Mohtaseb, <u>Ismail Matalka</u>. [14,096 JD Grant] by Deanship of Research, Jordan University of Science and Technology.
◆ <u>REGIONAL</u>	1. Screening for the Prevalence of EGFR and ALK Mutations in Lung Adenocarcinoma Patients in the Levant Area, a Prospective Analysis. Multi centre prospective study (Lebanon, Jordan, Iraq) funded by the American University of Beirut by [\$ 152,700].
◆ <u>INTERNATIONAL</u>	1. Location and Histopathologic Features of Colonic Polyps: Review of 6000 colonoscopies and 600 polyps. (Manuscript ready) Abstracted in European Association for Endoscopic Surgery (EAES) 25th conference, Germany 2017. (manuscript ready). 2. Incidence of MMTV-like sequences and Human Papilloma Virus in Jordanian breast cancer cases; the viral causal link and the vaccine hope . Collaborative Multi centre research between Jordan University of science and Technology, King Hussein Cancer Centre, The Royal Medical Services, Ministry of Health, and University of Pisa and Pisa University Hospital-Italy. [9,000 JD Grant] by Deanship of Research, Jordan University of Science and Technology
